

# 9 mm Cartridge

# 9 mm Cartridge

Arguably the world's most widely-used military handgun cartridge, the 9mm is often credited with the rise in popularity of semi-automatic pistols over the traditional revolver. Featuring a rimless head and tapered design, the 9mm delivers impressive power with moderate recoil.

Drawn from American-made premium brass cups that are manufactured exclusively at Jagemann™ Sporting Group, each casing undergoes rigorous in-line and post-production quality assurance testing to ensure a flawless casing of unparalleled durability and dependability.

Standard casing dimensions and tolerances have been modified to achieve maximum performance. Jagemann™ Sport Group's in-house tooling and engineering capabilities provide the ability to customize casing dimensions for use with specific projectiles. We can meet your needs.
